regulators being parts of machines; valves being parts of machines, including pressure valves; pressure reduction valves being parts of machines; pneumatic controls for machines and motors; motors, other than motors for land vehicles; electric motors, other than for land vehicles; generators of electricity; machine housings; mounts for machines; stands for machines; tables for machines; couplings and driving belts, other than for land vehicles; gear boxes, other than for land vehicles; ball-bearings; shaft couplings being machines; cranks being parts of machines; crank shafts; machine wheels; axles for machines; pump diaphragms; superchargers; turbo compressors; fans for motors; anti-pollution devices for motors and/or compressors, being parts of machines and motors; heat exchangers being parts of machines; parts of all the aforesaid goods, included in this class; safety accessories for compressors, namely safety valves, regulating valves; compressed air reservoirs being parts of compressors, machines and motors; control and regulating devices for compressors, blowers or vacuum pumps; apparatus and devices for machine control; regulating and safety accessories for compressors.

Class 9: Electric and/or electronic control and regulating devices for compressors, blowers, vacuum pumps, or air treatment apparatus and air treatment devices; electric and/or electronic apparatus and devices for process control and machine control; electric and/or electronic devices for the remote control of industrial processes; electric and/or electronic regulating devices for compressors, blowers and/or vacuum pumps, included in this class; electric and/or electronic control devices for compressors, blowers and/or vacuum pumps, included in this class; electric and electronic components and units, included in this class; integrated circuits; electronic and/or optoelectronic components and units, included in this class; apparatus and instruments for weak-current engineering, namely for telecommunications, high-frequency engineering, measurement engineering and control engineering; apparatus and instruments for power engineering, namely for conducting, transforming, storing, regulating and control; measuring devices, automatic time switches, automatic weighers; data processing devices and apparatus, including data acquisition equipment and data acquisition apparatus; computer programs recorded on data carriers and/or in data memories; computers and installations consisting entirely or mainly thereof; computer output equipment, including printers, recorders, plotters, terminals, screens, other visual display and feeler units; apparatus and devices for data transmission, including installations consisting entirely or mainly thereof; data memories, namely floppy discs, magnetic hard discs and magnetic tapes, magnetic bubble memories, solid-state memories, tape decks, optically and/or mechanically encoded storage discs and storage tape systems; electrotechnical and electronic apparatus and devices, included in this class; sensors for the acquisition of physical quantities, included in this class; devices for the recording, transmission and reproduction of sound, images and data; parts of all the aforesaid goods, included in this class.

Class 11: Apparatus, devices and machines for air treatment, including for compressed air conditioning, mainly for the separation and deposition of solid and/or liquid contamination of the compressed air; air filtering installations; air purifying apparatus and air purifying machines; air dryers, including compressed air dryers; desiccant (adsorption) dryers; refrigeration dryers; membrane dryers; drying apparatus and drying installations; drying devices; refrigerating apparatus, refrigerating machines and refrigerating installations; air cooling devices; air coolers, including compressed air coolers; condensate drains for compressed air applications being parts of refrigerating devices; heat exchangers, included in this class; apparatus and machines for the treatment of condensate water by means of purification and/or filtration; air filters for air conditioning; filters being parts of household or industrial installations; filter systems, including air filtering installations; compressed air filters; dust filters for use in compressed air installations; air purifying lamps having a germicidal effect; apparatus and devices for the sterilization of air; regulating and safety accessories for gas devices; taps for pipes; safety accessories for compressors, namely protective switches, pressure switches; control and regulating devices for air treatment apparatus and air treatment devices; compressed air reservoirs being parts of the aforesaid goods of class 11; parts of all the

aforesaid goods, included in this class; pipe line spigots of metal.

Class 16: Manuals; paper, cardboard and goods made from these materials, included in this class; printed matter; photographs; computer programs in printed form.

Class 37: Construction of compressed air generation systems, compressed air distribution systems and compressed air treatment systems; installation, repair, maintenance and care of the goods mentioned in classes 6, 7, 9 and 11; installation services relating to apparatus, devices and installations for compressed air generation, compressed air distribution and compressed air treatment; installation and repair of compressors and compressor installations; plumbing; installation, maintenance and repair of machines for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; cleaning of compressors and compressed air installations; installation and repair of pipes, namely of pressure pipes; rental of compressed air machines; rental of installations and devices for the generation, conduction, storing, release and/or treatment of compressed air.

Class 39: Distribution and supply of compressed air for third parties.

Class 40: Generation of energy and of compressed air; consultancy services for third parties in the field of generation of energy or of compressed air; air purification; air freshening (air conditioning); rental and leasing of installations serving the generation or supply of energy or of compressed air; generation of compressed air for third parties.

Class 41: Training and further training of engineers, including in the field of compressed air, compressors and compressed air applications; education; providing of training; film production; arranging and conducting of conferences and seminars.

Class 42: Technical planning of installations serving the generation, conduction, storing, release and/or treatment of compressed air; technical consultancy in relation to the development of technologies and technical components for compressed air systems; scientific and industrial research; computer programming; engineering services; construction drafting; technical project studies; quality control; preparation of reports relating to engineering consultancy services; material testing; all of the aforesaid services exclusively in the fields of compressed air generation, compressed air distribution and compressed air treatment; engineering consultancy services in the field of compressed air generation, compressed air treatment and compressed air distribution; research in the fields of compressed air generation, compressed air treatment and compressed air distribution.
